

Verizon 5G Business Internet

Solution brief

Welcome to the future of internet.
Ultra-fast. Ultra-powerful.

Internet connectivity: Next-gen possibility

Your business demands not just reliable connectivity, but internet that opens the door to next-gen innovation. Verizon 5G Business Internet unlocks the door to transformative 5G uses with its performance and reliability.

Verizon 5G Business Internet is a high-speed, fixed wireless access service that is paving the way for a new era of business innovation with speeds and capacity to connect many devices, giving your organization a powerful tool to help stay competitive. Delivered on Verizon's 5G Ultra Wideband¹ network, 5G Business Internet is faster than 4G LTE, connecting your organization to the internet with unlimited data and no annual contract.

Many benefits, innovation ready

5G Business Internet is ideal as either a primary or backup connectivity service. It's perfect for enabling new branches or locations, with a short lead time from order to install. Best of all, because 5G Business Internet uses Verizon's 5G Ultra Wideband network, your network can be configured to take advantage of 5G speeds and performance.

Verizon's investment in critical spectrum holdings facilitates a powerful 5G Ultra Wideband experience with expanding coverage and high performance.

Next-generation speed

Welcome to internet speeds that are ultra-fast. With Verizon 5G Business Internet, you can choose from three speed tiers, with our fastest tier offering download speeds of up to 400 Mbps. Meet face-to-face with colleagues, wherever they are, with low lag and low jitter, to collaborate smoothly in real time. Plus, our plans offer unlimited data.

Get an unprecedented 10-year price lock² so you can grow your business, not your costs.

Get 5G Business Internet. Level up your connection.

Easy and dependable

- Professional installation or plug-and-play (self-setup) options available in select markets/speed tiers
- Great solution for primary or business continuity (backup) internet connectivity
- Strong network security, built in from the start

Speed and performance

- Unlimited data
- Massive capacity
- Next-generation speed

Innovation ready

- Platform for advanced features and new organizational outcomes
- Become an early adopter of next-gen network technology

5G built right

- From a trusted business partner with award-winning network performance

The benefits of 5G Business Internet

Simple, reliable internet

Choose a custom installation by a trusted partner—Verizon—or the self-setup plug-and-play option available for select speed tiers and markets.

Business continuity

Keep your organization going with 5G Business Internet as a primary or backup internet connection.

Branch office connectivity

Quickly connect new locations as your business grows, made simple with Verizon's professional installation or easy plug-and-play self-setup option.

Evolution into a real-time-enterprise

5G Business Internet begins your path to the transformative 5G ecosystem with speeds and performance that improve video streaming, video surveillance and other next-gen use cases.

You'll have the connectivity to leverage transformative technologies as the 5G ecosystem continues to evolve.

Digital transformation

With Verizon 5G Business Internet, you can prepare your infrastructure to leverage transformative technologies such as 5G Edge. This technology is a great first-step into the 5G ecosystem, positioning your organization to introduce next-gen tools to drive true business change, through use cases like augmented reality (AR) and virtual reality (VR).

5G built right

From a trusted business partner that enables network performance and reliability, empowering mission-critical outcomes. Built on our spectrum and fiber assets, and engineered by the team more enterprises trust.

Choose the right plan and guarantee your pricing until 2032.²

	\$99/one time discount ³	\$199/one time discount ³
\$69/mo	\$99/mo	\$199/mo
100 Mbps	200 Mbps	400 Mbps

Plans reflect maximum available download speeds; these speeds vary and may be lower in the event of network congestion. Upload speeds also vary and will be lower than download speeds. Taxes and fees apply.⁴

To find out more about 5G Business Internet and how it can help keep your business locations connected, contact your Verizon Business Account Manager or visit verizon.com/5Gbusinessinternet

¹ 5G Ultra Wideband available in select areas.

² 10-Year Fixed-Price Guarantee offer for new 5G Business Internet customers in select areas only. Guarantee applies to the base internet monthly access fee, excluding applicable taxes, fees and equipment charges. Customer must be in a good standing and retain 5G Business Internet at the current service address; any customer-initiated change to the service or service plan cancels the price guarantee (e.g., location changes and speed upgrades/downgrades). Changes or disruptions to 5G Business Internet service to your location outside of Verizon's control will cancel the price guarantee. Terms apply. ARRIS router by CommScope is included with 5G Business Internet.

³ One time \$99 discount offer or \$199 discount offer fulfilled as a bill credit to your Verizon account and will appear within one to two billing cycles. May only be combined with select offers. Limited time offer.

⁴ Compatible equipment required. Professional installation requires an outdoor 5G receiver and compatible 5G-enabled router (Verizon-provided or customer-provided). Self-setup requires a Verizon-provided indoor router/receiver device; self-setup only available with select 100-Mbps plans.
